

Call for Abstracts

The Swedish section of IIC Nordic Group, NKF-S, is pleased to announce the NKF XXII Congress: Research and Review –Advancements in conservation and assessment of previous experiences. The congress will be held at the Swedish Royal Academy of Engineering Sciences, IVA Conference Centre in Stockholm, 21-22 October 2021.

Since the NKF-S celebrates 70 years as the major organization for Swedish conservators, we would like to take the opportunity to reflect on the development in the conservation field, as well as look ahead into a possible future. The congress will illustrate how the conservation discipline has changed and developed over the decades. Research, analytical methods, documentation, conservation treatments, and material choices, as well as working conditions have progressed. The congress focuses on what conservators have learned, how the experiences have been used and spread, and how we see the profession in the future.

The NKF XXII Congress is open for conservators, curators, and all professionals working within fields related to conservation.

You are welcome to submit abstracts for presentations on the above theme or topics. You may submit several abstracts. The resulting presentation we have in mind is no longer than 20 minutes including time for questions. The presentation can be held in Swedish, Danish, Norwegian or English.

All submitted abstracts will be reviewed, and papers will be peer-reviewed. Abstracts can be written in Swedish, Danish, Norwegian or English. Abstracts should be no more than 300 words, accompanied by a biography of no more than 100 words. Make sure you include your name, title, and other contact details at the end of the abstract. Abstracts should be sent by e-mail in Word or PDF before **July 1st 2020** to: nkfcongress2021@gmail.com
